

Preparation of Kinetin Stock Solution (10 mM)

1. Dissolve 21.5 mg of [Kinetin \(GoldBio Catalog # K-100\)](#) in 1 ml of 1N NaOH.
2. Bring solution to 10 ml with molecular biology grade water to get a final solution of 10mM.
3. Sterilize by filtration.
4. Store Kinetin Stock Solution at -20°C.
